

# FOR HEALTHIER AND SAFER PEOPLE FLOW ENVIRONMENTS

How people interact with everyday environments is set to change. Safe and clean spaces are and will be a priority. KONE's expertise in people flow planning, along with a suite of health and well-being solutions, will help buildings rethink user journeys and get ready for a new reality.

## CONTRIBUTE TO A HEALTHIER ENVIRONMENT

With KONE's solutions and services, you can share information real-time, schedule maintenance visits in advance, and remind users about physical distancing.

## REDUCE THE NEED TO TOUCH SURFACES

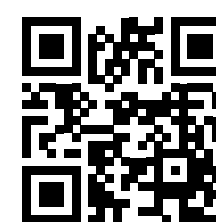

Our innovative touchless solutions enable contactless and efficient journeys.

## KEEP EQUIPMENT RUNNING AND SAFE

Minimize equipment downtime with predictive maintenance and create a smoother, and safer people flow with our KONE's planning and consulting services, designed to suit the current needs.

## HELP PREVENT THE SPREAD OF DISEASE

KONE's cleaning and disinfecting services and solutions help purify the air and keep equipment germ-free.
